REASONS FOR ALLOWANCE

- The following is an examiner's statement of reasons for allowance: The present invention is directed towards a method and apparatus for generating a halftone image. The closest prior art, Bockman et al. (USPN 6,081,344), shows a similar system, in which, a halftoning technique which uses look-up tables to identify a combination of color ink drops to be printed by an inkjet printer, wherein the look-up tables are indexed by a particular color to be reproduced. An error is also output by the look-up tables reflecting the difference between the indexing tone level and the printed color spot. However, Bockman et al. fail to address: "for wherein weighting a distorted device independent color space to discourage luminance fluctuations and outputting clustered halftone pixels according to a quantizing step, wherein said output is feedback to said quantizing step". These distinct features have been added separately to different independent claims and render them allowable.

- Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
